Letter of Recommendation for Jan Stansel

Dear Sir or Madame,

It is with pleasure I write this letter of recommendation for Jan Stansel.

Jan was a loving friend and care giver to my dog, Gibson, for seven and half years. Jan walked Gibson Monday-Friday for thirty minutes each day. She has a wonderful way with animals. She is kind and gentle, but firm. Gibson listened to her like no one else.

In addition to walking Gibson, she also helped heal him from knee surgery, providing extra physical therapy to quicken his recovery. She even went beyond her regular walk schedule to come by the house after work to show me how to do the physical therapy stretches.

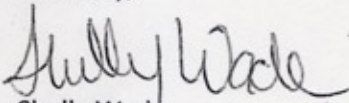

Jan is trustworthy and responsible. I worked from home for eight months during my pregnancy and maternity leave, and could set my watch by Jan's arrival. Gibson would hear her car coming and be so excited I could barely control him. She was a welcome visitor for me during the long days of house rest and taking care of twins.

Jan was also very flexible with our schedule, if we had a last minute change; she was always willing to work with us.

Jan has become part of our family. I could not trust any one more with my family member, human or animal. She truly loves her clients and provides wonderful care.

I would recommend Jan to anyone who is in need of pet care. She will be greatly missed in Northern Virginia.

Sincerely,

Shelly Wade
